

MUSINA LOCAL MUNICIPALITY

2012-13 ANNUAL PERFORMANCE REPORT

CHAPTER 1

FOREWORD BY THE MAYOR:

It is with great pleasure that I hereby present the Annual Performance Report of Musina Municipality for the 2012/13 financial year. This report outlines the achievements and challenges experienced by our Municipality. The Municipality takes pride in serving the community as an extension of good governance and implementation of those decisions taken in the best interests of the people of Musina.

In the execution of our tasks at hand as well as in the process of service delivery, mistakes were occasionally made either by councillors or officials, but I am nonetheless convinced that the community of Musina will be satisfied with the general management of the municipality.

Some of the major challenges that have been addressed during the past year included unemployment, poverty, unfilled vacancies, as well as social problems arising due to our massive population growth.

I have to thank each resident of Musina who has contributed significantly to the development of our municipality. Together we endeavour to overcome all our major challenges.

I would like to express my gratitude towards all Councillors and staff members for again making the 2012/13 financial year a successful year for service delivery. I wish to thank each individual and every organization who unselfishly served their fellow citizens and who constructively contributed towards building and turning Musina into a better place for all.

We are aptly aware of the challenges facing us, but I believe the Municipality has the ability to overcome these challenges and again raise the bar in service delivery standards. The people of Musina are assured of a working municipality, both in terms of its ability to deliver, and as a council with energy, enthusiasm and unwavering commitment to a better future for all.

In the spirit of cooperative governance, we built the soundest relationship with national and provincial departments to ensure that there is synergy and cohesion in service delivery. We collaborated with other municipalities across the country in order to share best practice and expertise so that the mandate to create a better life was accelerated. We had a cohort of committed workers who gave their best performance to assist us in realizing our objectives as a municipality.

All of these efforts, as the report shows, confirm that we were indeed committed in working together to build a better life.

1.2. MUNICIPAL MANAGER'S OVERVIEW

MUNICIPAL MANAGER'S OVERVIEW

The purpose of this report is to comply with the Municipal Finance Management Act regarding reporting regulations which requires that specific developments and challenges of the municipality be reported in the prescribed formats.

The main purpose of this report is to give feedback on specific targets of development that were set for the municipality. We were able to achieve our targets in relation to improvements made to service delivery in an attempt to align our services to the IDP. We must however also indicate that due to a high vacancy rate some of those targets were not met. Our financial indicators are a true reflection of our goal of efficient accountability and sound administration of the municipality.

I however would like to express my gratitude to the Council for the appointment of all senior managers so that we may be able to achieve targets that the Community set for us. In doing this we were able to achieve our mandate of service delivery to the community.

On behalf of the administration, it is my pleasure to pass gratitude to our political component, sector departments, the NGO's, civil society and most importantly our local stakeholders for the contributions they made towards the achievements as indicated in this report. I must further take this opportunity to thank the Municipal Management and staff for the job well done.

We must also acknowledge the challenges facing us going forward and with limited financial resources at our disposal we will ensure that we manage what we have in a way that will benefit our community and bring the services to them which they mandated us.

I trust that this report managed to highlights both achievements and challenges.

The MSA 2000 S11(3)(m) provides municipal councils with the legislative authority to pass and implement bylaws for the betterment of the community within the terms of the legislation.

The municipality has by-laws in place. However, enforcement thereof remains a challenge. There is a need, moreover, to raise public education and awareness to ensure easy compliance and enforcement of approved by-laws. Through by-laws, the municipality must, in future, regulate other critical areas that remain unregulated currently to curb un-favourable practices and to protect the interests of residents, business, environment and the state.

The Municipality identified a number of By Laws to be reviewed with the assistance of Coghsta.

Public awareness and cleaning campaigns are organized on a regular basis in order to promote cleanliness. A total of 7 awareness and cleaning campaigns, respectively were undertaken last year.

COMMENT ON THE PERFORMANCE OF ROADS AND OTHER OVERALL:

The performance is not satisfactory, due to inadequate finances for infrastructure. No provision could be made from own funds for a number of years.

LIST CHALLENGES

- The floods that we experienced in January further damaged the roads.
- The fast rate of development is also creating a challenge as we have a lot of heavy vehicles delivering in town as well as those passing through to neighbouring countries.

CHAPTER 4: LOCAL ECONOMIC DEVELOPMENT

COMMENT ON LOCAL ECONOMIC DEVELOPMENT PERFORMANCE OVERALL:

Musina Municipality is characterized by a relatively equal urban-rural population split with nearly half of the population in Musina Municipality residing in the urban areas centred around Musina town. Commercial activities are also almost exclusively concentrated in these areas. Opportunities therefore exist to build on the current strength of this economic node to further support the growth and expansion of businesses in this centre, thereby increasing the range of goods and services provided in Musina Municipality and ensuring that local communities do not have to travel to towns outside of the Municipality to do their shopping.

Musina Municipality and Musina town in particular also benefits from an advantageous strategic location in relation to the N1 and the Beitbridge and Ponderfontein border posts. This creates opportunities for this locational benefit to be exploited and marketed to potential investors, in order to attract larger enterprises. Furthermore, by capitalizing on its location and improving its transport and logistics services to ensure the reliable movement of goods and services, the Municipality can reduce transaction costs for investors.

In 2011/12 Musina municipality received major private investments developments from the private sector mainly, the development of a Chinese wholesaler with an investment injection of R600 million, the development of a coal mine by Coal of Africa with an investment of R680 million, the development of Venetia mine underground project with an investment of R10 billion, The development of Limpopo Eco-Industrial park with an initial investment of R25 million. The development of Musina to Africa Strategic Supply Hub Initiative (MUTASSHI) but the investment is not yet costed.

Due to financial constraints our municipality is not able to implement capital projects using own income and solely rely on government grants and support from the private sector. In 2012/2013 the municipality was allocated R14.6 million for infrastructure development and all the projects are derived from the IDP priorities namely;

1. Malale Sports centre,
2. Madimbo Community Hall
3. Thusong Centre Nancefield Ext 8
4. Park in Nancefield

The municipality was able to complete 2 of the projects in time with 100 % expenditure. The other two will be completed in September 2013.

The projects planned for the coming financial year as approved by MIG (Municipal Infrastructure Grant) are as follows:

- | | |
|--|-----------------|
| 1. Market in Nancefield Extension 8 | - R3,2 million, |
| 2. Market in Madimbo | - R3,2 million, |
